Lower Brule Agency

Lower Brule, S. Dakota.

Annual Report of

F. H. Somers, Agent.

DEPARTMENT OF THE INTERIOR,

UNITED STATES INDIAN SERVICE,

Lower Brule Indian Agency,

Lower Brule, S. Dakota.

August 26, 1901.

Honorable Commissioner of Indian Affairs,

Washington, D.C.

Sir:-

As directed in your circular letter bearing date July 15, 1901, I have the honor to submit my annual report of affairs at this agency for the fiscal year ending June 30, 1901, together with statistics pertaining to the agency and school and a census of Indians of the reservation.

I assumed duty at this agency on May 27, 1901, and in making this report I will have to depend, largely, on data found in the office. The agency buildings are in good repair and provide ample quarters for the school and agency employees.

The census of the Indians, taken June 30, 1901, shows the population as follows:

Children between the age of 5 and 18 years	136.
Males-----	66.
Females-----	70.
Total number of school age	136.
Male population-----	135.
Female-----	134.
Total "-----	467.

Agriculture.- This reservation is not adapted to farming, wild hay is plentiful and the Indians raise some corn and vegetables.

The land is best adapted to stock raising and if Congress should ratify the treaty now pending between the Government and the Indians in which they are to receive for a small part of their reservation a certain sum of money, a part of which is to be expended in placing a substantial fence around the reserve, the balance to be used in the purchase of good range cows and bulls which are to be issued to the Indians for stock raising purposes. In my opinion, they will thereby much nearer self supporting. The Farmers could see that necessary may be put up to feed during the winter months. Missionary.-The churches represented on the reserve are the Protestant Episcopal and the Roman Catholic.

There are two church buildings near the agency and four others on the reservation.

Police.-The police force consists of one officer and seven privates. They are faithful in the discharge of their duties.

Indian offenses. The court of Indian offenses consists of three Indian judges, who have given satisfaction, although there has been little for the court to do.

Sanitary.- The general health of the Indians the past year has been good. Small-pox was all around us, but by strict quarantine we had only three cases, none of which proved fatal.

Very respectfully,

R. H. Dimes

U. S. Indian Agent.

STATISTICS

ACCOMPANYING

ANNUAL REPORT,

1901.

James Burke Agency,
W. R. D. Mues
U. S. Indian Agent.

Department of the Interior,

OFFICE OF INDIAN AFFAIRS,

WASHINGTON, D. C., June 1, 1901.

SIR:

You are hereby directed to forward the Annual Report of your agency, one copy, in time to reach the Department *not later than the first of September* next.

The report should be plainly written on letter size paper, and on only one side of the sheet.

It should furnish the office with a *concise* but clear view of all affairs at your agency, the condition, habits, and disposition of the Indians under your care, and reliable information as to the character and extent of progress made, and should be a full but *brief* summary of all noteworthy events and changes that have occurred among the Indians belonging to the agency during the year. Facts in compact shape are wanted, and definite recommendations and suggestions are invited; but theories, generalizations, and especially "solutions of the Indian problem," may be dispensed with.

It must be borne in mind that this report is intended for public as well as for office use, and therefore it should contain such information as in itself will afford to one who seeks a knowledge of the Indians under your charge an accurate picture of their condition, as well as a condensed history of the year's work. It should also be borne in mind that this report can not be relied upon by the agent for securing definite action by this office; matters requiring office action must be presented in a *special* report on *each* subject.

~~For~~ Annual reports of employees other than superintendents of schools need not be forwarded for publication as appendices to the agent's report. Instead, the substance or their salient points should be incorporated by the agent in his report.

The accompanying blanks, furnished for statistical information, should be carefully and fully filled out and forwarded with your report. Statistics of maturing crops not yet gathered may be carefully estimated. There must be no delay in forwarding the report on account of inability to furnish the exact figures; but when the figures are estimated that fact should be stated, and exact figures should be furnished as soon as possible. *Every* question must be answered; this office should not be left to infer from a blank that a question does not apply to your agency or that an answer is naught. Answers should be given in *figures*. Crops raised by white men on rented Indian lands should not be included in these statistics.

~~For~~ These statistics should be made with greatest care and be based upon actual knowledge or reliable data. They are matters of frequent reference, and the inconsistency and unreliability of figures furnished by some agents have embarrassed the office and discredited other figures that are reliable. There is palpable error when, for instance, the number of houses occupied by Indians is given as 300 one year and 25 or none the next. If the figures to be given this year are inconsistent (on their face) with those given last year, *the discrepancy should be explained* either by showing that the former figures were incorrect or by stating the cause of the difference between the reports of the two years. Glaring discrepancies without explanation must not be allowed.

These statistics should show the *actual state of affairs* of your agency, whether creditable or otherwise. "Rose-colored" statements are not wanted; their ultimate effect is to throw discredit on all statistics published by the Indian Office.

The subjects of agriculture, allotments, education, missionary work, morality and marriage customs, courts of Indian offenses, and other courts having jurisdiction over Indians, road-making and repairing, and all industries among the Indians of your agency will, of course, be set forth in detail in the body of your report.

All educational work carried on among the Indians under your charge, whether by Government or other parties, should receive special notice, and the condition and progress of *each* school should be reported. Special care should be taken to furnish statistics concerning schools *not* aided by Government, the annual report being the main source of information concerning them.

Please acknowledge the receipt of this circular letter, and state at what time you will mail your report to this office.

WM. A. JONES,

Commissioner.

Lower Bunde, S. S. Jany

Office of Supervision of Census,
White House, S. D. Dak.

Dear Sir:
In reply to your letter dated
Dec. 16, 1909, relative to enumerators for the
Lower Bunde Area. I would say that we are
handicapped in our regular work by in-
sufficient help, & that it will be impossible for
us to detail any person for this purpose.

We have some statisticians in Neothree
that might be of use, and would gladly
furnish same to any enumeration that ~~we~~
are required to this place.

Very respectfully,

C. H. G. : M. S.

Signed (S. H. G.)
